PROFESSIONAL SUMMARY

Backend-focused Software Engineer with hands-on experience designing REST APIs, integrating AI capabilities through the OpenAI API, and deploying full-stack web applications to production. Currently pursuing a degree in Artificial Intelligence Engineering while independently building real-world projects spanning dynamic websites, learning management platforms, and AI-assisted tools. A fast learner who quickly adopts new backend frameworks and translates requirements into scalable, maintainable systems. Looking to bring strong problem-solving skills and a builder's mindset to a backend or AI-powered SaaS engineering team.

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML, CSS
Backend	FastAPI, Node.js, REST API Design
Databases	PostgreSQL, SQLite, SQL
AI & Integration	OpenAI API Integration, Prompt Engineering, AI-Assisted Development
DevOps & Tools	Git, GitHub, Vercel, Railway

FEATURED PROJECTS

MBC Dent — Dynamic Dental Products Website

- Built and deployed a dynamic website for dental products with backend integration to drive dynamic content.
- Improved on-page SEO structure to increase search visibility.
- Optimized site performance and managed the full deployment process.

Educational LMS Platform

- Developed a full-stack Learning Management System with a secure authentication system and role-based dashboards for students and teachers.
- Built RESTful backend APIs to power core platform features.
- Implemented a responsive user interface for consistent access across devices.

EDUCATION

Artificial Intelligence Engineering

Faculty of Engineering, Mansoura National University
